

Package ‘ip2locationio’

October 31, 2024

Type Package

Title Lookup Geolocation and Proxy Information using 'IP2Location.io' API

Version 1.0.0

Maintainer IP2Location.io <support@ip2location.io>

Description Query for enriched data such as country, region, city, latitude & longitude, ZIP code, time zone, Autonomous System, Internet Service Provider, domain, net speed, International direct dialing (IDD) code, area code, weather station data, mobile data, elevation, usage type, address type, advertisement category, and proxy data with an IP address. This package uses the 'IP2Location.io' API to query this data. To get started with a free API key, sign up here <<https://www.ip2location.io/sign-up?ref=1>>.
